

# ***MJ-TH100 TEMPERATURE & HUMIDITY MONITORING SOLUTION***

***Accurate, Real-time, Robust***

## **Key Features:**

- Support MQTT, TCP, HTML Protocol
- Support 4G LTE Communication
- Compact PCB Design
- Accurate Temperature and Humidity Reading
- Durable Enclosure for Industrial Environments
- Easy Wall or Panel Mounting

## **System Functionality:**

- Continuously temperature and humidity monitoring
- Wireless transmission of data
- Alert; LED and messaging application configurable

## **Applications:**

- Data centre and server rooms
- Warehouse facilities
- Agriculture
- Industrial
